amendments.

mixtures (for inks).

marking instruments caps.

BIC[®] Round Stic[®] Ecolutions[®] ballpen contains **98% of recycled material**. The percentage of the recycled material is calculated on the total weight of the product excluding cartridge. For further information, the barrel is made from the scrap of fruits and vegetable trays.

The calculation of the percentage of recycled materials of our products **complies with ISO 14021** standard for environmental claims and communications.

We have a process with our suppliers to ensure the traceability of all raw materials and guarantee their origins, especially regarding recycled materials used in our BIC[®] Ecolutions[®] range.
