

Media Clic BGuard™ Antimicrobial™ Ecolutions® ballpen

BIOCIDAL PRODUCT

Biocidal products are substances or formulations intended to destroy, deter, render harmless, prevent the action of, or exert a controlling effect on any harmful organism by chemical or biological means.

Use biocide safely. Always read the label and product information before use.

BIC® Media Clic BGuard™ - classified as a biocidal product - was designed and manufactured to **act against** bacteria, viruses and fungi.

- 99.9% of **bacteria** is eliminated* from the surface of the pen in 24 hours and more than 30% in 2 hours.
- 93% of **viruses**, Sars-Cov-2 coronavirus causing Covid-19 disease, are eliminated* from the surface in 24 hours and around 50% in 2 hours.
- **Fungi** present on the surface is inhibited within 24 hours.

Barrel made from 86% recycled plastic car parts**.

* Percentage of elimination and reduction versus BIC® Media Clic standard pen.

** The percentage is calculated on total weight of barrel.

Comply with the following European product safety regulations:

- REACH regulation (EC) n°1907/2006 and its amendments.
- European Directive 2001/95/EC and its amendments on general product safety.
- European Regulation (EC) n°1272/2008 and its amendments, relative to the classification, labelling and packaging of substances and mixtures (for inks).
- International standard ISO 11540 and British standard BS 7272-1:2008 on writing and marking instruments caps.
- British standard BS 7272-2:2008 + A1: 2014 on writing and marking instruments end closures.
